KIN
FUND SERVICES

The Fund concentrates on innovative, high-growth technology and science businesses across the UK, with a focus on the Oxford Innovation network. It provides every investor with a diversified portfolio based on a well-defined selection process. Hundreds of companies are reviewed and filtered to discover quality opportunities that are selected by a very experienced group of investors and sector experts with entrepreneurial experience.

Key Investment Criteria

When reviewing potential investments, we will identify opportunities with the following criteria:

- A strong and credible management team;
- Technology that has a barrier to entry;

- A solution to a well identified problem with a large market;
- Traction, whether technological or commercial; and
- A well-thought-out growth strategy with potential for exit.

Network Expertise

The Fund draws upon Oxford Innovation's extensive network of technology talent and opportunities. The advantage of this is:

- We find the most promising opportunities from a wide spanning network providing a quality flow of potential deals.
- Identifying opportunities that have been assessed by individuals with significant market knowledge and experience in investing and running companies.
- Support. Once invested we are able to use the Oxford Innovation network to add vital knowledge, experience and contacts to help grow the companies.

Investment Committee

The responsibility for the selection of investments for the Fund will rest with our experienced Investment Committee.

The Investment Committee consists of ten members, three 'internal members' and seven 'external members' from the OION angel network who bring their own specialist expertise.

Internal Members

Jens Tholstrup

Richard Cooper

David Crichton-Miller

Kevin Adams

Philip Lafeber

Fiorangelo Salvatorelli

External Members

Walé Adepoju

Christian Hoyer Millar

John Boyle

Caroline McGuirk

Risk Warning

Don't invest unless you're prepared to lose all the money you invest. This is a high-risk investment and you are unlikely to be protected if something goes wrong. Take 2 minutes to learn more [here](#).

The value of an investment may go down as well as up and investors may not get back the amount they invest. Investments in early stage/ small enterprises are high risk and you should not invest unless you can afford total loss or if you are likely to require the capital in the near term, since such investments will be difficult to realise.

This summary has been approved by Oxford Investment Opportunity Network Limited as a financial promotion for the purposes of section 21 of the Financial Services and Markets Act 2000. Oxford Investment Opportunity Network Limited (t/a Oxford Innovation Finance) is authorised and regulated by the Financial Conduct Authority (FRN 564525). It is not an offer to invest in the Oxford Innovation EIS Growth Fund ("the Fund"). Investment in the Fund can only be made on the basis of the full Information Memorandum and the risk factors contained therein. If you are in any doubt about the content of this summary and/or any action you should take, you are strongly recommended to seek advice immediately from an independent financial adviser authorised under the Financial Services & Markets Act 2000 and who specialises in investments of this type.
